

FITS ...

‘Realise your Vision’ for Teaching and Learning Roadmap

The FITS ‘Realise your Vision’ roadmap is a consulting framework designed to help you create and manage an effective ICT strategy.

It takes a holistic approach to the effective use of ICT in your establishment through a structured process where we work with you on the path from where you are to where you want to be.

What’s involved?

The FITS ‘Realise your Vision’ roadmap includes several sub-processes that together with help from our experienced technical support consultants guide you through the steps of identifying where you are now, where you want to be and how to get there.

The Processes

Where are you now?

Our consultant identifies where you are now in a number of significant areas through interviews with key staff at your establishment and an analysis of your ICT network environment . This provides us with a baseline on which to base the next phases of the ‘Realise your Vision’ roadmap.

Where do you want to be?

Our consultant works with you to identify your vision for teaching and learning outcomes at your establishment. Together we identify what you have set out to achieve during the coming months or years to be where you want to be.

How to get there

The information that we collect in the previous phase will provide the basis for your ICT strategy where we establish the ICT infrastructure you will need in place to support your vision. Finally we develop a roadmap with key stages along the way outlining what additional ICT resources will be required to achieve that vision and the associated costs.

FITS ‘Realise your Vision’ Roadmap

The way forward for the 21st century educational establishment

FITS helps you to implement a structured approach to your technical support, realise a better return on your ICT investment and have a positive impact on teaching and learning outcomes

"..I think people under-estimate how important IT is in a school"

"It all needs to be working perfectly because you have 30 little children who are going to tell you instantly if things are not working properly."

Anna Bonello - IT Manager and Teacher

FITS 'Realise your Vision' Roadmap provides real tangible benefits;

- A clear picture of where you are now
- A detailed roadmap outlining the actions needed to get you to where you want to be
- Our recommendations with associated budgetary and resource estimates
- Our qualified technical support consultants working with you along the way
- Real savings and protection for your ICT investment
- One master plan for the whole establishment
- A structured, managed process proven to improve ownership and staff morale
- Training for your technical support staff to support your vision or,
- Assistance with selection of external support services
- Costs and deliverables are agreed up front
- Undertaken as a fixed cost to help with budgeting

"... If you want a consistent approach to your ICT technical support, then FITS is the way to go. It's protected our investment, it's ensuring that teachers know exactly where to go for their technical support".

Susan Lawrence - Head Teacher
